

UV-15 *For PURE UV PRINTING*

UV-15 is one of the standard blankets for Pure UV Printing of Meiji with its proven technology.

UV-15 is compatible with various UVs such as LED, H-UV, and conventional UV. Special technologies adopted on the surface rubber realize high printing quality and high edge mark resistance for UV printing.

UV-15 is preferred especially for its balanced characteristics with high dot screen quality by many experienced printing houses in Japan where UV printing has been quite common.

Physical Properties

	UV-15
Type	Compressible
Surface Color	Blue
Compressible Layer	Closed Cell
Nominal Thickness (mm)	1.95
Hardness (Shore A)	82
Roughness Ra (μm) Center value	1.20
Compressibility Ip5 (%) ISO 12636 / Center value	5.5

Notice: DO NOT use for normal oil based printing ink and solvent
